## PROFESSIONAL SUMMARY

Python Full Stack Developer with 5 years of professional experience in web development, frontend engineering, responsive UI development, and backend integration. Experienced in HTML5, CSS3, JavaScript, React.js, Bootstrap, WordPress, and REST API integration, with practical full-stack development experience using Python, Django, Django REST Framework, and PostgreSQL. Skilled in developing web applications, building REST APIs, integrating databases, implementing role-based access, debugging, and application deployment. Familiar with Git, GitHub, SQL, and Agile development practices.

## PROJECTS

### EmployEase – Employee Management System

### Full Stack Web Application | React.js, Python, Django, Django REST Framework, PostgreSQL, JavaScript, HTML5, CSS3, Bootstrap

**Live Demo:** https://employ-ease-eosin.vercel.app/

- Developed a full-stack employee management application using React.js and Django with separate HR administrator and employee dashboards.
- Built backend REST APIs using Django REST Framework and integrated them with the React frontend for employee data management and CRUD operations.
- Integrated PostgreSQL database hosted on Neon and implemented role-based access for HR and employee functionalities.
- Developed responsive user interfaces using React.js, JavaScript, HTML5, CSS3, and Bootstrap.
- Deployed the frontend on Vercel and backend on Render.

## PROFESSIONAL EXPERIENCE

### Frontend Developer | Centurian Apps and Solutions
### Client: LG Soft India Pvt. Ltd., Bangalore | Jan 2023 – Mar 2026

- Developed and maintained 30+ responsive websites across healthcare, education, e-commerce, NGO, and corporate domains using HTML5, CSS3, JavaScript, Bootstrap, jQuery, and WordPress.
- Customized WordPress themes, plugins, Elementor, and WPBakery; integrated frontend components with backend services using REST APIs and PHP.
- Optimized website performance through image optimization, lazy loading, browser caching, SEO practices, and frontend enhancements.
- Managed deployment, hosting, cPanel administration, SSL configuration, domain setup, website migration, troubleshooting, bug fixing, and production support.

**Frontend Developer | Appadd India Pvt. Ltd., Bangalore**
**Apr 2022 – Dec 2022**

- Developed responsive web pages using HTML5, CSS3, Bootstrap, JavaScript, and jQuery.
- Customized WordPress websites and implemented frontend UI enhancements based on project requirements.
- Handled responsive design, cross-browser compatibility, website performance optimization, testing, deployment, troubleshooting, bug fixing, and maintenance.

**Junior Frontend Developer | Innappsys Technologies, Bangalore**
**Aug 2020 – Mar 2022**

- Developed responsive user interfaces and customized websites using HTML5, CSS3, Bootstrap, JavaScript, and WordPress.
- Assisted with frontend development, website maintenance, production support, responsive fixes, and cross-browser compatibility.
- Supported SEO improvements, website performance optimization, and frontend troubleshooting while collaborating with senior developers.
